

It gives me great pleasure to announce that **The Center of Attention Foundation, Inc.** has partnered with Promise House in Dallas. When searching for a partner, my goal was to find the one that could benefit most from our efforts as well as available and prospective resources. Initially, I thought this would be a difficult decision, but as soon as I walked into Promise House there was

something special in the atmosphere.

I went in to learn more about Promise House, and partnered with them before I left! Promise House is an emergency shelter that provides transitional living and other programs designed to assist underprivileged

children in reaching their fullest potential. I'm very excited about the partnership and look forward to accomplishing our goals in order to enrich the quality of life of these amazing children.
